EDUCATION

Jaypee Institute of Information Technology, Noida

2022 - 2026

Bachelor in Technology, Electronics and Communications

CGPA - 7.96/10

St. Joseph's School, Puranpur

2020 - 2021

Class: XII, CBSE Board

Percentage:-95%

EXPERIENCE

Zinnia

Noida, Uttar Pradesh

Software Quality Engineer

Jul 2026 – Present

- **Tech Stack:** Playwright, TypeScript, Selenium, Postman, REST APIs, Python, SQL, JIRA
- Architected an automated API regression testing framework across **10+ REST endpoints** validating authentication, payload integrity, and business-critical workflows cutting manual validation effort by **50%**.
- Built a data-driven, spec-driven validation engine in **Playwright/TypeScript**, parsing Excel-based conditional trigger rules to validate **900+ UI** fields across multiple insurance carriers against live application data.
- Automated cross-browser UI regression suites using Selenium and Python across **3+ browser environments**, validating core workflows to strengthen release confidence.

Business Analyst Intern

Jan 2026 – Jun 2026

- **Tech Stack:** SQL, Postman, REST APIs, JIRA, Confluence, Apache JMeter
- Translated business requirements into user stories and acceptance criteria for **8+** product enhancements, improving development readiness and eliminating requirement ambiguity.
- Collaborated with product owners and cross-functional stakeholders to prioritize backlog items across **3+ sprint releases**, aligning feature scope with business goals and ensuring on-time delivery.
- Partnered with QA to validate business requirements across **15+ API endpoints** using Postman and SQL, performing load testing with Apache JMeter to assess system performance ahead of UAT.

TECHNICAL SKILLS

Programming: Python, JavaScript, SQL, C/C++

Automation & Testing: Playwright, Selenium, REST Assured, TestNG, API Testing, Performance Testing, Manual Testing, Smoke Testing, Regression Testing, Data-Driven Testing, STLC, Defect Life Cycle, Agile/Scrum

Development: React.js, Next.js, Node.js, Express.js, REST APIs

Data & Analytics: Relational Databases, Data Cleaning, KPI Tracking, Outlier Detection, Trend Analysis

Tools: Git, GitHub, JIRA, Apache JMeter, Postman

PROJECTS

Event Finder | *Next.js, TypeScript, MongoDB, Clerk, Stripe*

- Architected a full-stack event discovery platform with location-based search, secure authentication, and end-to-end payment-integrated ticket booking.
- Implemented secure authentication via Clerk and payment processing via Stripe, managing event and transaction data at scale with MongoDB.
- Extended UI functionality via Swiper.js integration, enhancing performance without added framework overhead.

LocalEstate | *JavaScript, HTML, CSS, Swiper.js*

- Developed a responsive real estate web application with interactive property listings, reusable UI components, and smooth navigation flows.
- Implemented dynamic layouts and optimized frontend interactions using JavaScript, improving user experience across different screen sizes.
- Designed modular frontend components and integrated third-party libraries for enhanced UI functionality and performance.

CERTIFICATES

- Data Analytics Essentials Certificate - **Cisco**.
- Data Analytics Job Simulation - **Deloitte(via Forage)**.

Certificate

Certificate

POSITION OF RESPONSIBILITY

- Parola: Literary Hub of IIIT (*Management Head*) | **Certificate**

Jun 2024 – May 2025
