EXPERIENCE

Zinnia

Noida, Uttar Pradesh

Software Quality Engineer | *Playwright, TypeScript, Jenkins, AI-Assisted Testing*

Jul 2026 – Present

- Architected a modular Playwright-TypeScript framework executing **700+ Excel-driven scenarios across 4 domains**, integrated with Jenkins for on-demand regression testing.
- Automated **SAML SSO, OAuth, and multi-step API authentication workflows**, validating end-to-end transaction lifecycles, status updates, and document generation.
- Designed a reusable rule-based field-mapping engine spanning **15+ domains** with persistent learning and LLM-assisted self-healing fallback, accumulating **167 learned mappings** to improve UI-change resilience.
- Engineered automated spec-compliance validation across **645 generated forms and 29 UAT transactions**, with discrepancy detection, field-level auditing and Allure/dashboard reporting across **50+ runs**.

Business Analyst Intern | *SQL, Postman, APIs, Apache JMeter* | Certificate

Jan 2026 – Jun 2026

- Partnered with business and product teams to translate strategic requirements into **8+ actionable product enhancements**, accelerating development readiness and cutting requirement ambiguity by aligning scope upfront.
- Drove cross-functional alignment with product owners and stakeholders across **3+ sprint releases**, prioritizing initiatives against business goals and driving them to on-time delivery.
- Collaborated with QA to validate requirements across **15+ API endpoints** using Postman and SQL, with Apache JMeter used for performance validation ahead of UAT.

PROJECTS

LocalEstate | *JavaScript, Node.js, Express.js, MongoDB, REST APIs*

Repository | Live

- Developed a full-stack real-estate marketplace with property search, favorites and tour scheduling, backed by session-based auth, a **rate-limited 10-endpoint Express REST API** and MongoDB, deployed on Vercel.

LocalEstate Test Suite | *Playwright, TypeScript, GitHub Actions, API Testing, Docker*

Repository

- Created a Playwright-TypeScript suite of **24 UI and API tests using Page Object Model** and custom fixtures, running on every push and pull request via GitHub Actions and in a Docker container.
- Uncovered **2 mortgage API defects**, reported as GitHub issues with root cause, and **eliminated cold-start flakiness** by awaiting API responses, with failure traces and screenshots captured in the CI report.

Event Dazzle | *Next.js, TypeScript, MongoDB, Stripe*

Repository | Live

- Built a full-stack event booking platform integrating Ticketmaster, Bushdrum and Stripe APIs across **7 Indian cities**, with **3-tier zone-based tickets**, UPI payments and email OTP authentication.

TECHNICAL SKILLS

Programming: Python, JavaScript, TypeScript, C/C++

Frameworks & Development: Next.js, React.js, Node.js, Express.js, REST APIs

Technologies: Playwright, Selenium, Apache JMeter, Jenkins, GitHub Actions, Docker, CI/CD Pipelines, Allure

Concepts: API Testing, Regression Testing, Page Object Model, OOPs, DBMS, System Design, Operating Systems

Databases & Tools: MongoDB, SQL, Git/GitHub, Postman, JIRA

EDUCATION

Jaypee Institute of Information Technology, Noida

2022 – 2026

Bachelor of Technology, Electronics and Communication Engineering

CGPA: 7.96/10

St. Joseph's School, Puranpur

2020 – 2021

Class: XII, CBSE Board

Percentage: 95%

POSITION OF RESPONSIBILITY

Parola: Literary Hub of JIIT

June 2024 – May 2025

Role: Management Head

- Spearheaded the promotion of **Delhi-NCR's largest literary fest, JOUST**, engaging **550+ attendees** across **9 competitions** and expanding outreach to **170+ colleges**, increasing participation by **20%**. | Certificate
